REMARKS

The specification has been amended in order to cor-  
rect some obvious typographical errors.

All the claims have been rejected under 35 U.S.C.  
101 on the ground that there is insufficient evidence of re-  
cord demonstrating that Applicants' compositions are effective.  
In this regard, the Examiner's attention is drawn to the ac-  
companying affidavit of ROSLYN E. WALLACE which demonstrates  
conclusively the effectiveness of Applicants' claimed composi-  
tions.
